9	The traffic control plans listed in the RFP do not appear to match the site conditions. Can you clarify the exact MOT required for each site?	The traffic control plans are correct as stated.
8	For the dewatering operation for BMP 126, is there a known flow rate or volume of water that needs to be removed to maintain the work area? Needed for dewatering permit application.	The volume of water within BMP 126 is approximately 180 cubic yards. The pipe inlet into BMP 126 is submerged which will create additional flow. The extent of this flow is unknown.
7	In the specification section 905501 – Sand Filter Cleaning, it states in the description the cleaning and “including the removal and replacement of covers and grates”. Does this mean replacing/repairing the grates as necessary (i.e. Broken frame on Unit 59 Lancaster Pike) or just remove and clean frame to may sure it is operable?	Specification 905501 was written as the temporary removal of the covers and grates and the resetting of them upon completion. It is asked that the contractor take an inventory of damaged cover and/or frames, including dimensions, however our 2017 inspections noted no structural deficiencies for the sand filters in the contract, so this should be minimal.
6	In the proposal, it states that the Drug Testing Affidavit page is going to be updated in an addendum, when is that going to be released?	The drug testing affidavit was released as Addendum 1 on February 22, 2018.
5	Is the length of contract 30 Calendar days (per proposal) or 60 Calendar Days (per Advertisement)?	The contract time is 60 days from the date specified in the notice to proceed.
4	I see their is Liquidated damages, what is the amount per day for Liquidated damages?	Please refer to Section 108 of the 2016 Specifications for information on liquidated damages.
