

Delaware Department of Transportation  
**QUESTIONS AND ANSWERS**  
**T201480204.01**  
**PIPE INSTALLATION, OPEN END, SOUTH 2014**  
**Wednesday, December 18, 2013**

Q #	Question	Answer
3	Please refer to note 39 on page 7 of the plans and specifications. Items such as borrow, GABC, topsoil, seed and mulch are not quantifiable. There are items on the bid form to measure and pay for those things separately. Does the Department really intend to have the cost of all the aforementioned items incidental to bid item 614875?	Yes. Note 37 states that the minimum length of pipe to be installed shall be 24'. This is the length of pipe to be installed for a typical residential entrance of 12' wide. The detail on page 8 shows widths and maximum depths. However, topsoil, seed and mulch will only be placed at the ends of the pipes on each side of the driveways.
2	Please refer to general note 21 on plan page 5. Will 208000 and 210000 be calculated and paid for pipes under 24" in diameter?	Yes. 208000 and 210000 are paid separately at each location (all pipe sizes) with the exception of 614875.
1	What size are the grates for bid item 270?	Bid all to be installed on 15" RCP flared end sections.
