PCC PATCHING, NORTH, OPEN END, FY15-17, NEW CASTLE COUNTY

Thursday, November 13, 2014

Q #	Question	Answer
2	Please explain what is included in the basis of payment for Item #708107 – Manhole, round?	As per the spec, this includes work to construct reinforced portland cement concrete manholes. There may be a need on the contract where a new manhole would need to be constructed.
1	Special Provisions 763544, 763545, 763546, and 763548, all state “this item is payable only when the work involved is hot-mix overlay paving”. Are we to assume this is a typo and that the Road Location Mobilizations also include PCC patching related activities?	This is a typo. It is our intent to use the mobilization items for PCC patching activities.
