T201506402.01

WARM MIX PATCHING, NORTH, OPEN END, FY15-17/NEW CASTLE COUNTY

Friday, November 07, 2014

Q #	Question	Answer
7	Are there any daily minimum quantities for items 401821, 401823, or 406001?	There are no daily minimum quantities for any item on the contract, as this is an open-end and the locations are yet to be determined.
6	Ref Note 17 on Plan Sheet 4 indicates excavation of roadway materials for patching shall be incidental to the patching item being placed. What is Item 406001 for?	Item 406001 is to be used to mill the warm-mix patch areas and will be paid in sy-in.

Friday, October 31, 2014

5	How is the hot mix haul rate to the different areas accounted for?	There is no additional payment, the price is based off the applicable Pay Items in the contract.
4	Ref para 27 on plan sheet 6; how is the contractor paid for item 406001 if not done with a milling machine and the hot mix replacement item if not done with a paver?	The work shall be paid at the unit price for Item 406001.
3	At the bottom of plan sheet 5 it talks about restricted work hours so how does the contractor take into account the lost production due to restricted work hours in his pricing?	As reiterated in Note 23, if there are day time restricted hours the number of work days shall be increased, being that this is an open end contract with no set locations working hours will be determined at the issuance of the work order.
2	Same question in regard to para 21 on plan sheet 5.	The nature of this contract is open end, therefore there are no set locations, refer to Standard Specifications Section 763 – Initial Expense for additional information.
1	How does the contractor anticipate what might be involved under para 18 on plan sheet 5?	The nature of this contract is open end, therefore there are no set locations. Any tree, shrub, or vegetation less than 6 inches in diameter is to be fully removed and payment shall be incidental to the applicable repair or replacement Pay Item.
