QUESTIONS AND ANSWERS

T201707502.01

Structure Maintenance, Central District, Open-End, FY19-21 Kent County

Thursday, November 01, 2018

| Q # | Question | Answer |
|------------|---|--|
| 2 | <p>Regarding item # 610511, specifically, the 6th requirement listed among the Bid Document Submittals: “..The name, hire date, and resume of the licensed professional engineer (licensed in the state of Delaware)..”.</p> <p>We are hoping to have this requirement stricken from the list as we feel it is too restrictive. Our engineers do not have Delaware state licensure.</p> | <p>The request to remove the requirement for the licensed professional engineer in the State of Delaware is denied as this is a requirement of state law. Firms can apply for reciprocity in the State of Delaware through Delaware Association of Professional Engineers.</p> |

| 1 | <p>Section 610511 requires the bidder to submit the prior experience of the contractor and the name of the PE who will be performing the work under this item with the bid. Given the work is open ended, undefined, and no locations have been identified, can these submissions be changed from being required with the bid to being required after award?</p> | <p>The Department is fine with requiring this documentation at the time we assign a bridge location that includes this item.</p> |
