Large Guide Sign Contract, Statewide, Open End 18-21
Friday, August 24, 2018

Q #	Question	Answer
2	I was inquiring about getting the signage plans for this project? No signs are listed on the plans you have posted.	This is an open end maintenance contract there are no specific Signs or Sign locations listed.
1	There is a Breakout Sheet for Maintenance of Traffic which calls for MOT Case Set-Ups. These MOT Case Set-Ups call for Arrow Panels and Truck Mounted Attenuators. Do we price out the Breakout Sheet including Arrow Panels and Truck Mounted Attenuators?	The prices for the cases on the breakout sheet should include everything needed for the case, including arrow panels, TMA, etc. The individual items for the Portable light plant and Attenuator are for instances where we don't need a complete case but we do have a need for these items.
