CULVERT REPLACEMENTS ON N239, PYLES FORD RD NEW CASTLE COUNTY

Tuesday, August 11, 2020

Q #	Question	Answer
2	Who is responsible for employing the Qualified Bog Turtle Surveyor (QBTS)? As stated in the Environmental compliance sheet, page 91-93 of the proposal.	The Qualified Bog Turtle Surveyor will be employed by The Department. The Contractor shall coordinate with DelDOT Environmental to ensure that the QBTS is on-site at appropriate times.
1	The standard specifications for Item 201000, Clearing and Grubbing calls for removal of trees to the Limit of Construction. A site visit reveals that this would include removing more than a few large trees. Some of these trees have a green dot painted on them, which we do not know the significance of. Considering that tree removal is a sensitive subject and the difficulty of determining which trees will be removed, would DelDOT consider adding a Tree Removal item per	The trees that are marked with green paint will be removed prior to construction by The Department. This work will be done to facilitate the utility relocations that are a part of this contract. Tree Removal Items will not be added to this contract. The contractor should bid the project per the plans and specifications provided in the contract documents.
