**LIGHTING ENHANCEMENTS, INTERSTATE, OPEN END, FY18-19, NEW CASTLE COUNTY**

**Thursday, July 20, 2017**

<b>Q #</b>	<b>Question</b>	<b>Answer</b>
4	Seems like a lot of unit price description sheets are missing can we get them? Especially the MOT.	This contract is being bid under the DelDOT Standard Specifications for Road and Bridge Construction, August 2016. In the new Specifications most of the old Special Provisions have been converted to standard items in the Standard Specifications. For example, item 851003 – Aluminum Lighting Standard with Single Davit Arm, 40’ Pole information is found under Section 851 in the 2016 Standard Specifications.
3	Shouldn’t the rates be highway construction? Rate sheet is for Heavy Construction.	Prevailing wages included in the proposal are the minimum wages to be paid for various classes of laborers and mechanics as determined by the Department of Labor of the State of Delaware in accordance with Title 29 Delaware Code §6960.

**Friday, July 14, 2017**

2	Do you have a lighting cabinet detail on the DelDOT project? We don’t see any plans for it. Also it seems that most of the special provisions for the material are missing from the bid information packet.	The detail for Lighting Control Cabinets, Type M & Type P, will be issued on Addendum #2. All other information is found in Section 1080 of the Standard Specifications for Road and Bridge Construction, August 2016.
