COUNTY: New Castle County in Delaware

HIGHWAY CONSTRUCTION PROJECTS

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.80 for calendar year 2020 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.80 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2020. If this contract is covered by the EO and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must pay workers in that classification at least the wage rate determined through the conformance process set forth in 29 CFR 5.5(a)(1)(ii) (or the EO minimum wage rate, if it is higher than the conformed wage rate). The EO minimum wage rate will be adjusted annually. Please note that this EO applies to the above-mentioned types of contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but it does not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1 (a) (2) - (60). Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Construction Methods:

The Plans show, in general, a conceptual layout with the location and installation details of various electrical and relocated work to be performed under this Contract. It is the Contractor's responsibility to validate the conceptual layout by performing design and submitting it for approval following the procedure noted below.

It is the Contractor's responsibility to provide, at least sixty days prior to the installation of the Temporary Lighting, Temporary Lighting Design drawings to the Department for their review and approval. The Temporary Lighting Design drawings shall include the following:

1. Layout drawings showing the location of all temporary lighting equipment.
2. Details of lighting and electrical equipment to be used.
3. Details of electrical power source.
4. Specific technical details including catalog cuts on all lighting fixtures to be provided, including power rating and photometric charts.
5. Details of any hoods, louvers, shields or other means to control glare.
6. Lighting calculations confirming that the illumination requirements will be met by the Contractor's temporary lighting design.
7. Other design plans and details are requested by the Department to validate and approve the Contractor's temporary lighting design.

The layout drawings shall be on sheet size approved by the Engineer and at an appropriate scale to adequately describe the work. Layout drawings must be submitted and approved for all Phases of Construction.

The Temporary Lighting design shall provide at least 5.0 average maintained foot-candles with an average / minimum uniformity ratio of approximately 15:1 or less across the pavement of the court.

When there is no longer a requirement on the site for the temporary lighting units, the wood poles and luminaries shall become the Contractor's property.

The Contractor shall coordinate all the necessary activities for electrical power with the owner of the Electrical Utility in the area and obtain the required electrical service.

It is the Department's intent to provide a continuously operating temporary lighting system. Should an operational problem be reported to the Contractor at any time during use of the unit, the Contractor shall have ~~30 minutes~~ **24 hours** after receipt of notification to rectify the problem to the Engineer's satisfaction. Failure of the Contractor to make this effort may result in deduction of payment for the time the system is not satisfactorily operating. To this end, the Contractor shall designate an on-site representative, other than the Project Superintendent, who shall be the Department's contact person on all issues related to the temporary lighting system. The Contractor shall also designate a Manufacturer's Representative to be on call for technical assistance or as otherwise necessary.

Basis of Payment:

Payment for the temporary lighting shall be made at the lump sum unit price for the "Temporary Lighting" item, which price and payment shall constitute full compensation for designing, coordination, furnishing and installing all materials including, but not limited to, all the work and materials mentioned above in this Special Provision; for all switches, hardware, attachments, appurtenances and incidentals necessary to make the temporary lights safe, operational and functional, during the period required on the job, for removal of all materials when no longer required and for all labor, tools and equipment necessary to complete the item.

The Contractor shall be responsible for all electrical connection and service charges required for the temporary lighting and shall make payments directly to the Electrical Utility Company.
