Q #	Question	Answer
3	I would appreciate information about the subcontracting opportunities and which trades are included in this project.	Subcontracting opportunities are at the discretion of the contractor awarded the contract.
2	Could you please let me know if there is a scheduled site visit and whether contractors can inspect the project before preparing an estimate?	A site visit is not scheduled prior to bid opening. The project is located within public right of way and is accessible to potential bidders.
1	We are interested in the project and would like to find out whether there are portions of the work involving landscaping, concrete, exterior construction, or other work that our company could provide.	DelDOT can not make a determination of the contractors capabilities. Please refer to the bid documents for the type and scope of work required for the project.
